

STÖBER

THE PACKAGED UNIT SOLUTION

STÖBER Synchronous Servo Geared Motors are a packaged unit solution, meaning you can be up and running faster than ever!

Power Tips 23

INSTALLATION HAS NEVER BEEN EASIER!

Improper motor installation can lead to premature failure in your application. When you buy a STÖBER Synchronous Servo Geared Motor, you're buying peace of mind, because the motor is already installed onto the gearbox and properly sealed before it ever arrives to your facility – packaged and ready to go, right from the box.

Benefits of STÖBER Geared Motor

- Single Supplier
- Ease of installation
- Sizing Support
- Aftermarket repair

SERVICE & SUPPORT 24/7/365

- Application analysis and sizing support from our expert engineers
- Aftermarket repair available at our Maysville, Kentucky facility
- Troubleshooting and diagnostics to help you optimize your motors
