

STÖBER OEM RENEWAL PROGRAM

Extend Your Machine's Life and Save Money!

How would you like to extend the lifetime of your gearboxes, geared motors, and machines? With the new Renewal Program from STÖBER Drives, you get extended lifetime and cost savings. STÖBER products are synonymous with reliability and longevity. Our average mean time to failure is over 9.1 years.

This program means you can get a refurbished product at a low cost. How is this possible? **Our engineering team evaluates applications to determine wear and lifetime for that application.**

We offer a fixed cost per product, making renewal easier than ever!

Whether you have a single unit or an entire production line of STÖBER products, we can help. Our Renewal Program brings new life into your existing gearboxes or motors at a fraction of the cost of purchasing new units. Take advantage of this program and decrease your total cost of ownership with STÖBER!

PROGRAM BENEFITS

- The STÖBER Pillars - Quality, Delivery, and Service
- Extended warranty
- Eliminating unexpected downtime through preventative maintenance
- Single source for products throughout their lifecycle
- Protected OEM aftermarket units

HOW IT WORKS

Customer ships unit to STÖBER

STÖBER evaluates seals, bearings, pinion, gears, outputs, and inputs

STÖBER replaces or repairs items

Customer receives renewed unit back with a new 2 year warranty

Let go of the hassle of dealing with multiple repair shops and scrambling to find parts. Where better to bring new life into your gearboxes than the place they were born? At our facility in Maysville, KY, your calls will be answered in 3 rings or less by associates you are already familiar with, allowing you to have a single contact with your STÖBER products.
