

STÖBER cLEAN System: Built for the Toughest Washdowns

When hygiene and reliability matter most, STÖBER's cLEAN System delivers unmatched performance. Designed for food and beverage washdown environments, this system combines durability, efficiency, and easy maintenance —*all backed by a 3-year warranty.*

STÖBER

**cLEAN
System**

NO WATER INGRESS

STAINLESS STEEL KSS GEARBOX

- All-stainless steel construction resists corrosion and harsh chemicals
- Sealed for life—high performance input seals, dual output seals, no breathers, vents, or bladders
- Design eliminates bacteria harborage points
- Food-grade lubrication—no maintenance required

EFFICIENCY MEETS HYGIENE

cLEAN MOTOR

- IE5 permanent magnet technology for maximum energy savings
- IP68 & IP69K protection with double seals on all connection points—no water ingress
- Zero weepholes for complete washdown protection
- Runs up to 86°F cooler for longer life and safer operation
- EHEDG-compliant design for effortless cleaning
- Speeds from 0-3000 RPM
