BENEFITS OF STÖBER PRODUCTS

Find exactly what your application needs - from inline to right angle, planetary to helical bevel, STÖBER has what you need to optimize your machine design.

OUR THREE PILLARS

QUALITY

German Engineering and Assembled in the USA

DELIVERY

Build and Ship in 1 Day

SERVICE

24/7, 365

MOTION CONTROL

5 YEAR WARRANTY

Bearing Options to Optimize Machine Design and Maximize Life!

- ▶ Shaft loads are no problems
- ▶ Avoid upsizing to larger unit

P Series

PH Series

STANDARD LOAD

AXIAL LOAD

RADIAL LOAD

AXIAL & RADIAL LOAD

Ball Bearing

Double Row Angular Contact bearing

Cylindrical Roller Bearing

Reinforced Bearing

Wider gear teeth means greater torques

MORE COMPACT

ADAPTABILITY

SHORTER LENGTH

RUNS COOLER

QUIETER

- ▶ Get the highest input speeds and stiffness
- ▶ Increase life by up to 30% with an MSS1 input seal
- ▶ Improve durability with a single cast housing and machined toleranced motor plate for the ultimate structural rigidity
